Safely Indicate When A Forklift is Backing Up Before Being Seen

There are Over 19,000 Liftgate Accidents Pedestrians Each Year

With the blue Utility Market LED light you can indicate from the base of the forklift up to 40' with the adjustable mounting system. The blue UM provides necessary safety for employees working in noisy environments or where ear protection is required and audible alarm may not be sufficient.

PART#	Beam	Raw Lumens	Dimensions	Weight	Wattage
XIL-UM4410BNF	10° Narrow	3,696 lm(ea)	119.56/108.8/80 mm	1.1 kg	35 Watt
