Next Gen 10 Watt Standard Form Factory Light

The Solstice Prime 7 LED builds upon Vision X Lighting's success in the 6" Round form factor light market.

Solstice Prime: Direct 1 for 1 replacement for HID Lighting on vehicles. The 40° beam allows for flood lighting on vehicle while the 20° beam allows for spot lighting. Combining traditional form factor with the power of LED, the Solstice Prime is the OE upgrade option for HID and Halogen replacement that improves reliability and lighting output. Available in 5 or 7 LED model, the Solstice Prime includes Prime Drive for thermal management and dimming ability built in.
