### Solo Series Usage Guide

#### COMPACT 2" ROUND

The Solo Prime packs a 10 Watt LED into a 2" round to produce a large output from a small housing. The Solo is designed for use in almost any application.

#### HIGH OUTPUT

One Solo pod produces 602 effective lumens of light, or as much as a halogen car headlight, yet all from a 2" housing.

#### PRIME DRIVE TECHNOLOGY

With Prime Drive, Electronic Thermal Management maintains a safe operating temperature for the light without sacrificing output.

#### DIMMING CAPABILITY

Pulse Width Modulation circuitry flashes the LED faster than the human eye can see to achieve dimming capability.
