

Cube Shockwave Single

Features

- ▶ Clear Bezel For Wider Dispersion
- ▶ High Efficacy CUBE LEDs
- ▶ Die-Cast Aluminum Housing
- ▶ Power Supply Packages Available

Premium Fluorescent replacement with 180° Full-Spread Beam Pattern

Vision X is able to provide professional solutions due to the effectiveness of CUBE LED Technology. CUBE LEDs differ from standard diodes primarily in size and output per watt. A CUBE LED has a larger surface area, allowing more light to be emitted per individual watt. Additionally, having a larger surface area gives the LED a much wider beam pattern, allowing more lux to illuminate a more wide-spread area.

HIGH EFFICACY: Cube LEDs from Vision X are ideal for structural applications because of the 117 lumens per watt ratio. We're able to get more light output for a lower cost than standard LEDs.
