Scene and Work LED Light

Powered by 21 ultra bright LED's, this sleek surface mount light pumps out a staggering 12,000 Lumens with the high Output model.

Little too much power? The standard model tunes the output down so you can spread the light across multiple fixtures to fit your needs.

Using an angled mounting plane for the LED Circuit Board and drivers, the LED Scene and Work Light shines more light in the areas where you need it the most!

SURFACE MOUNTED LIGHT Usage Guide

With flat design and 10° downward illumination, it is ideal for mounting on the vehicle side. Offers wide, homogeneous close-range illumination right around the vehicle.
